Children of the club members are invited as guests, and all others will be welcome on payment of the regular guest fee.

March which ended at 12 o'clock

The March which ended at 12 o'clock last night was a record-breaking month in some respects. No snow fell from the 1st to the 31st day. There was one rainfall with a fair precipitation, and two other rainfalls which come under the head of showers. The temperature during the last few days was of mil-summer mildness, with the thermometer around the 80 mark during the warmest part of the day.

The West river bridge was closed Tuesday while the approaches were being graded. The rods with which the arches are aligned have been changed into new positions and a few longer ones have been added in the centre in order to permit the arches to be put back into first class shape, which will be done in a few days. It is uncertain just how long the bridge will be closed for travel, but if is expected that it can be reopened in a few days. Considering what has been done on the bridge the interference with traffic has been slight.

Patrons of the Auditorium will be the said a good shot. Vended Johnson of the slight done on the bridge the interference with traffic has been slight.

Patrons of the Auditorium will be treated to a genuine novelty Saturday, April 9, matines and night, in the performance of Ed. Payne's musical comedy, "Billy, the boy artist," adapted from the carloon series which has held the attention of the readers of the Boston Sunday Globe for over 10 years. Billy and the familiar characters on whom he plays his practical jokes with his paint and brush create so much genuine fun that the audiences are wildly enthusiastic. The musical end of the contest has not been neglected and the scenic effects brilliant.

The jury in the case of Miss Abbie Duggan against Thomas J. Heaphy, proprietor of the Pavilion hotel in Montpeller and formerly manager of the Brooks House in Brattleboro, returned a verdict Priday of \$2500 and costs for the plaintiff. The jury was out about 30 hours and twice asked for instructions. At the first trial the jury disagreed after being out a long time. Miss Duggan brought suit against Mr. Heaphy to recover \$6000, claiming that she suffered physical impairment while working in the faundry of his hotel through negligence on his part. The trial was bitterly fought, counsel for both sides contesting every point with animated zeal. The case will probably be appealed to the su-

Positions as enumerators for Brattleboro in the coming census are not attracting a large number of candidates. The village has been divided into four districts, and the farming territory will be covered by a fifth man, Six candidates from Brattleboro took the examinations for enumerators. Two of these falled to bass, two more would not take dates from Brattleboro took the examina-tions for enumerators. Two of these failed to pass, two more would not take up the work as they had other positions which were more jucrative and another decided that he would not take a posi-tion as the pay was not sufficient. The sixth man has accepted the position, and he is ready to begin work at the required time. To those who desire to see an adequate census the situation is see an adequate census the situation is a provoking one. The pay of enumer-ators is on a per capita basis, each commainty being placed in a class according to the speed with which the work can be done under the conditions there. The class under which Brattleboro village somes is on a two-cent per capita basis. This is wholly inadequate to attract competent men. The situation is serious as only two weeks remain before the taking only two weeks remain before the taking of the census will begin.

The presence of the San Jose scale in Brattleboro continues to be the chief topic of conversation among gardeners, Brattleboro continues to be the chief topic of conversation among gardeners, orchard men and all who are interested in preserving the natural beauties of the village. Since the visit of State Commissioner of Agriculture O. L. Martin of Plainfield and Prof. Cummings, the state nursery inspector, a thorough examination of the conditions has been made by Tree Warden George Bishop. The state officials found the scale in various yards in the north part of town and Mr. Bishop found a general infestation on Prospect hill. None of the scale was found south of Pine street or in Esteyville and it does not appear to have spread further westward than the function of High and Green streets. On the North it is bounded by the Retreat and by the Bradley farm. It is possible that other small sections may be found to be infested outside the village.
